

1 **Amendments to the Claims:**

2 Claims 1-4 (canceled)

3 Claim 5 (currently amended): A multi-layered signage apparatus wherein the material
4 displayed may be quickly changed, comprising:

5 a frame,

6 a plurality of opaque sheets each containing a different graphic image, said
7 sheets forming a stack of sheets, and said stack of opaque sheets removably carried by said
8 frame, wherein only one of said opaque sheets is visible at any point in time, and

9 a transparent and removable cover sheet carried by said frame on top of said
10 stack of opaque sheet or sheets, said cover sheet having a first region wherein alphanumeric
11 information is displayed and a transparent second region,

12 said graphic image on each of said opaque sheets being placed on said opaque
13 sheets so that said image does not interfere with said alphanumeric information on said cover
14 sheet, and

15 whereby the material displayed by said sign includes said alphanumeric
16 information on said removable cover sheet and a graphic image from one of said opaque
17 sheets, and is readily changeable by either inserting a different cover sheet or by inserting a
18 different opaque sheet having a different graphic image behind said cover sheet,

19 wherein a single viewer looking at said ~~sign~~ signage apparatus through said
20 removable cover sheet sees said alphanumeric information on said cover sheet along with a
21 graphic image on ~~said~~ one of said opaque sheets.

22 Claim 6 (canceled)

23 Claim 7 (original): The apparatus of claim 5 further comprising a non-glare plastic lens
24 carried by said frame on top of said cover sheet.
